The CS55 Wireless Office Headset System combines the clarity and performance of traditional corded technology with the hands-free convenience of wireless mobility. Featuring DECT 6.0 and advanced noise-canceling technologies, this business-class headset system offers superior audio performance and a roaming range of up to 300 feet. Add to the mix a talk time of up to 10 hours on a single charge, a handset lifter that lets users answer and end calls away from the desk, and a headset design that can be converted to over-the-ear, over-the-head, or behind-the-head wearing styles, and the result is a wireless headset system that takes communications and multi-tasking to a whole new level.

- Noise-canceling microphone for business-level sound clarity
- Unique 3-in-1 headset design can be converted to over-the-ear, over-the-head, or behind-the-head wearing styles
- DECT 6.0 for interference-free communication and roaming range of up to 300 feet; 64-bit encryption security
- Handset lifter lets users answer and end calls remotely
- Up to 10 hours of talk time on a single battery charge
- One-year warranty
